

SunPatiens® Tiered Bucket Planter

Materials

SunPatiens Compact Red
SunPatiens Compact White
Coleus
Galvanized Tub
Galvanized Bucket (2)
Plastic Pots
Potting Soil*
Awl/Punch
Hammer

Steps

- 1) Use awl/punch to puncture the bottom of the tub and buckets for drainage.
- 2) Place plastic pots upside-down in the galvanized tub at varying heights.
- 3) Arrange galvanized buckets atop plastic pots (they should look staggered).
- 4) Fill the galvanized tub and two buckets $\frac{3}{4}$ full with soil.
- 5) Arrange SunPatiens and filler plants to your liking in all available spaces.
- 6) Fill remaining tub and bucket space with soil surrounding your arrangements.
- 7) Water and enjoy!

Notes

You can use any color combination of your choice.
SunPatiens *do not* need to be fertilized regularly after initial application.
Don't forget to water your SunPatiens regularly!

*Try to choose soil with slow-release fertilizer.
